COVID-19 Update

iDeliver & Rangiora Couriers is continuing to operate as an essential service for those who need it!

We appreciate your inbox is full of COVID-19 updates, however, I will make this as brief as I can.

Our team will continue to operate our services during the Level 4 lockdown, as we are classified as an essential service. If you/your business is continuing to operate over this period and need deliveries/pickups we are at the ready to service your requirements.

iDeliver is also prepared and at the ready to assist anyone in our community who is in need of home delivery services, whether this be grocery, click & collect deliveries, pharmacy collections or even ferrying items to and from co-workers.

All of our drivers will be wearing gloves and masks. In addition to this, each driver has alcohol wipes onboard and will use where necessary. All staff will be practising good social distancing to ensure the safety of our staff, and the community at large.

If you are in need of our services, please phone or text Paul on 0274335483 or Vicki on 0274359721 or book online via www.ideliver.co.nz/book

If you are unwell or under self-isolation due to recent overseas travel, or exposure to recent travellers, please advise this when you book your pickup/delivery, so we can ensure our staff pickup or deliver with extended social-distancing.

We as a country have some challenging times ahead, however keeping calm, thinking

rationally, well-washed hands and a little social distancing, we can get through this together.

Have we reached the right person in your business?

We usually have email contacts for the accounts side of your business, however, our quarterly newsletters are targeted to the people we interact with on a daily basis, who phone, text, email or use our app to book in pickups and deliveries.

If this newsletter has reached you and you are not the person booking in jobs, please feel free to forward this email on, or reply to us with their email address and we can update our database for you.
