

Are you wanting to buy block's of Fee's or sell some of yours?

Tabak has worked with many Accountant's when brokering business sales in NZ and have been asked many times by those Accountants to help with the sales and purchasing of blocks of fee's - so this is now a brand new service we offer.

We have many firms looking to expand so if you are looking for an exit strategy, wanting to downsize, wondering what your fee's are worth or want to join another firm then please let us know - we can help.

Of course, if you are wanting to expand then please let us know and we will confidentially look for what you are after.

We do currently have a number of firms looking to either sell all or some of their fee's so please contact us if you are interested.

Please remember that any conversation between you and Tabak is in **strict** confidence.

We will keep you informed of opportunities as they arise so keep an eye on our accountants newsletter.

Thank you for continuing to support your local Tabak team and we are looking forward to helping you more in the near future.

Kind Regards,

Damien Fahey & the South Island Team
